

Free Lancaster Tire Collection

421 South Broad Street in Lancaster

Saturday, November 11th, 2017 from 7 am to 11 am

Tires provide excellent habitat for mosquitoes, particularly the Asian tiger mosquito, a potential vector of Zika virus. Tires may also provide habitat for a number of other mosquitoes species that may be a nuisance or spread other diseases, such as West Nile virus. In response to this potential hazard the Lancaster County Mosquito-Borne Disease Program is conducting a one-day tire collection to promote mosquito habitat removal.

- **Open to persons living in Lancaster County.** Please bring proof of address via driver's license, phone bill, etc.
- **There is NO preregistration for this event.**
- Tires will be taken for **FREE** from each individual, so long as space is available.
- Tires must be drained of water if off the rim, unburned, and not excessively dirty.
- **PLEASE NOTE THAT SPACE IS LIMITED.** One trailer will be loaded to capacity with tires. Excess tires will not be accepted.
- Many local entities exist that can recycle scrap tires for a fee, including all three facilities operated by Lancaster County Solid Waste Management Authority (LCSWMA). For more information about LCSWMA's services, call (717) 397-9968 or visit lcswma.org
